Royse City, TX

Phase 1 of *The Reserve at Royse City* is a 5 building, 52,000sf flex industrial park located at 6723 W Interstate Highway 30, Northeast of Dallas along the rapidly growing I-30 corridor. The property will feature easy access to the North and South of the park and is just down the road from the I-30 on ramp. It is located just 25 minutes from downtown Dallas and has frontage on I-30 (~52,000 VPD). The site is also just 4 lots down the road from a Buc-ee's.

Property Overview

The first 5 buildings will each consist of 10,400sf which are duplexed and have 5,200sf per unit. Each unit will have a retail/office storefront with warehouse space in the back. There will be 1,500 sf retail/office and 3,500 sf of warehouse space. The office space will host 4 offices, large conference area, reception, kitchenette, and two bathrooms. If a tenant required a larger space, two units could be combined to create a 10,400sf space.

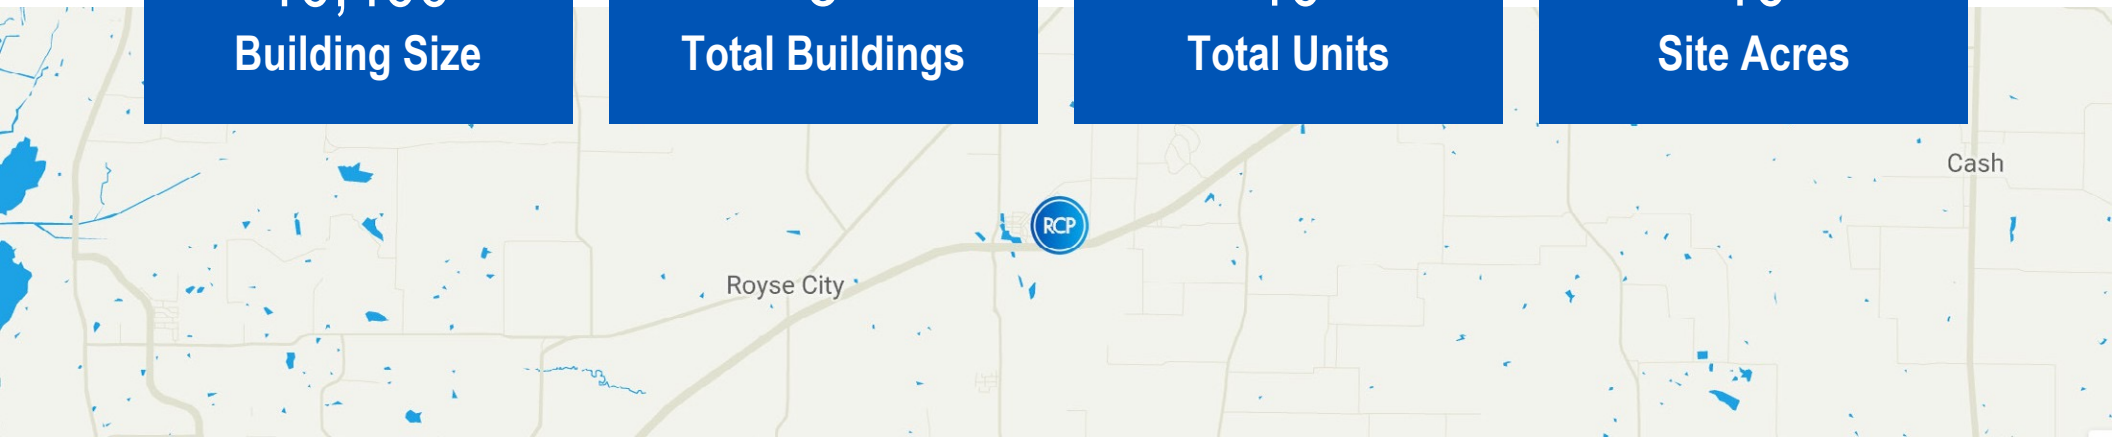

Shortly after RCP acquired the site, a new 65,000sf state-of-the-art medical city hospital was announced on the adjacent plot. The hospital has broken ground with expected completion set for late 2025. The two-story project will feature a comprehensive emergency room, inpatient care, 12 physicians' offices, digital imaging, pharmacy, ambulance bay, and community room. The project has plans for a phase II that will expand upon the hospitals size and capabilities.
